MILL OF BENHOLM MEMBERS

The Mill of Benholm board of Trustees invite people to establish and participate in a 'Members' group.

The project team of staff and volunteers provide adult learners with work experience and training in catering and landscape management and in so doing they operate and develop this historic site as a visitor centre and community resource for the people of Aberdeenshire.

We encourage people to join the members group and actively participate in the operation and development of the facility. In the present financial climate the ideas and energy of such members will be warmly welcomed. The board of directors is elected from the members group.
